ABOUT MADMONQ®

MADMONQ® is the first complex nootropic specifically developed for complex needs of top-level gamers. MADMONQ® brings you boost incomparable to standard energy drinks. Combination of stimulants, adaptogenic herbs, non-essential amino acids and extracts synergistically affects performance. The effect improves over time.

ELITE GAMING + HEALTHY BRAIN + POWER & PERFORMANCE

OUR MANIFESTO

We believe gamers deserve to kick-start their brains to full potential. We want to help them unlock performance that earns respect, secures wins and brings tears to opponents' eyes. Performance, that no energy drink can rival. We are MADMONQ® and we created the ultimate brain boosting formula for gamers.

We say no to energy drinks and sugary beverages. We say no to unstable energy levels and hit or miss performance. We say no to being tired and making mistakes that cost games.

We formulated MADMONQ® for pure mental performance. Performance that is inspired by military, gaming, ancient wisdom and brain research. Performance that will help you push a little harder and be a little better.

IMMEDIATE BOOST

Focus
Clarity
Alertness

LONG-TERM EFFECTS

Memory
Cognition
Eye health

HIGH-STAKES SITUATIONS

Stress control
Anxiety reduction
Motivation

PLEASE READ
CAREFULLY

INSTRUCTIONS AND RECOMMENDATIONS

CHEW or SUCK one tablet **15-20 minutes before gaming**. Do not exceed maximum dose of 2 tablets per day.

Expect a very specific blueberry **TASTE** with a bitter tone towards the end. There is a simple reason for this. MADMONQ® is just too packed with some of the most effective ingredients for brain health. And they taste bitter. Blueberries will also colour your tongue purple. This is a desirable effect. No need to panic.

TO PRESERVE FRESHNESS KEEP THE PRODUCT CLOSED AT ALL TIMES! We chose natural and avoided additives. So, to keep MADMONQ® fresh, always keep it closed. We trust you on this. The natural ingredients are **extremely sensitive to moisture** and will absorb it if exposed. This may cause discolouration and slight change of hardness. Don't worry, this does not affect performance.

consider keeping the small, moisture
absorbing bag inside the pack

We do not recommend to mix with alcohol or any other stimulants. MADMONQ® is awesome by itself.

MADMONQ is our ♥.
MADMONQ is your GG.

COMPOSITION

Nutrient-dense formulation of some of the world's most renowned ingredients for brain health and performance. All this goodness is produced in one of the most advanced, GMP certified production facilities in the Czech Republic.

CAFFEINE { *Coffea* }

Caffeine is a powerful stimulant and a performance enhancer. It comes from coffee beans and provides mental stimulation by sensitizing neurons.

EUROPEAN BLUEBERRY { *Vaccinium myrtillus* }

European blueberries (or Bilberries) are a true superfood with strong antioxidant action. They are also one of the healthiest foods for your vision and brain.

BRAHMI { *Bacopa monnieri* }

Bacopa monnieri is a nootropic herb that is traditionally used for cognitive enhancement, concentration, improved circulation and memory.

SIBERIAN GINSENG { *Eleutherococcus senticosus* }

Siberian ginseng is an adaptogenic herb with complex stimulating action. It supports both physical and mental performance and improves recovery.

RHODIOLA { *Rhodiola rosea* }

Rhodiola rosea is an adaptogenic herb which promotes cognitive performance, reduces fatigue and exhaustion, particularly during stressful situations.

XYLITOL { *Great for teeth!* }

Xylitol is one of the best natural sugar substitutes. It is extracted from berries, fruits or birch trees. It is tooth-friendly with many oral cavity benefits.

L-THEANINE { *Amino acid from green tea* }

L-Theanine is an amino acid that is not common in the diet. It is similar in structure to excitatory neurotransmitters and acts synergistically with caffeine.

L-TYROSINE { *Precursor to dopamine* }

L-Tyrosine is a precursor to dopamine and increases its levels. Dopamine is a key neurotransmitter for motivation, focus, productivity and executive functions.

ACETYL-L-CARNITINE { *A building block for proteins* }

Acetyl-L-Carnitine is involved in energy metabolism, mitochondrial activation and protection.

ZINC { *Supermineral* }

Zinc is an essential mineral and one of the most important micronutrients needed for survival and proper brain performance.

VITAMIN B6 { *Pyridoxine* }

Vitamin B6 plays key roles in many brain functions, central nervous system and energy metabolism.

VITAMIN B12 { *Cobalamin* }

Vitamin B12 is a water-soluble vitamin involved in the metabolism of every cell of the body. It also plays an essential role in normal brain functions and nervous system health.

WE SAID:

NO to artificial colours, **NO** to artificial flavours, **NO** to preservatives, **NO** to GMO, **NO** to performance killing sugars and **NO** to unnecessary additives, **YES** to natural sources and **YES** to healthy, powerful brains.
